OBJECTIVE

Seeking a part-time internship to grow experience. Eager to apply experience and to expand upon current skills in order to accomplish employer objectives.

EDUCATION

University of California, San Diego

(2016-Present)

B.S., Cognitive Science (Specialization in Design and Interaction)

Degree Expected: June 2019

Southwestern College

(2014-2016)

Associate's Degree, Mathematics

RELEVANT COURSEWORK

Usability and Information Architecture, Design of Everyday Things, Introduction to Research Methods and Statistical Analysis, Field Methods, Neurobiology of Cognition, Introduction to Java, Introduction to C++, Calculus and Analytic Geometry for Science and Engineering, Differential Equations, Linear Algebra

SKILLS

- User Research
- User Testing
- Statistical Analysis
- Storyboarding
- Wireframing
- Prototyping
- Figma, Photoshop, MATLAB
- Languages: Java, C++, HTML
- IDEs: Microsoft Visual Studio, Eclipse
- Microsoft Office (Word, PowerPoint, Excel)
- PC building

EXPERIENCE

Golden Ticket

- Developed a high-fidelity prototype for a mobile app targeted towards seniors to help them obtain discounts for a variety of different services through an intuitive interface
- Underwent storyboarding, user-testing, and multiple iterations of prototyping before reaching a final high-fidelity prototype

UC San Diego Library Catalog (Redesign)

- Produced a redesign of the UC San Diego Library Catalog to better fit users' needs and create a more streamlined website
- Conducted user research through observational interviews to find insights about the website's design

ORGANIZATIONS

- Design for America
- Medical Foundations
